

The Benefits of Ledgers and Cloud Technology

Cloud technology is the way of the future, the days of printing invoices, mailing cheques, printing pay stubs and keeping paper receipts are a thing of the past.

By integrating several 'apps', Ledgers has created the most efficient, effective and simple method of bookkeeping for small business.

We didn't re-invent the wheel, instead, we selected the best of the available Accounting and Bookkeeping apps and combined them into one – the Ledgers System

- Access your financial information from virtually anywhere
- App is available for your Tablet / Cell Phone
- Uses bank level security
- No need for software updates and backups
- Send invoices and reports via email
- Multi-level user access and security

“Thank you so much in getting the business plan and projections to me Friday morning. I sent all documents to the bank and we were approved this morning.”

- Another Satisfied Client!

Remember at Ledgers,
“The Numbers Look Good®”

The Ledgers “SureStart”™ Program

Give Your Business a Running Start

Designed Especially for:

Launching a new Business can be very frightening!

There are so many things to worry about... from finding a location, hiring staff, finding suppliers, talking to customers, arranging financing and more.

Whether you buy a 'turn-key' franchise system or start a business of your own design, the startup can be absolutely frightening and extremely time consuming

This is why we created:

SureStart™

What is *SureStart™* ?

When a person enters into a business, be it a franchise opportunity or a plan they have developed on their own, the startup issues can be of great concern and quite overwhelming for the typical small business owner.

With this in mind, we created the *SureStart™* Program which includes:

- Business Plan, Budget, Cash Flow and Projected Financial Statements
- Incorporation of the Business
- Government & CRA registrations
- Accounting System Setup
- Payroll System Setup
- Advice, Planning and Assistance with all of the accounting and business related questions a new business owner is certain to have
- The first 3 months of bookkeeping for your business

And mostly...

The Peace of Mind in Knowing Your Business is Starting on the Right Foot

Ledgers Services do not end with *SureStart™*

Once your business is up and running, your relationship with Ledgers does not end.

Your Ledgers Professional will be by your side each step of the way; ensuring you have solid information to make your business successful.

Your Ledgers Professional also offers the following services:

- Accounting / Bookkeeping
- Incorporations
- Year End Financial Statements
- Personal Income Tax Preparation
- Corporate Income Tax Preparation
- Business Planning Services
- Business Advisory Services
- Accounting Software Installations
- Payroll and Related Services
